September 11, 2020

Good Morning Adult Education Students,

Friday, September 11, 2020: Patriot Day, National Day of Service and Remembrance: On this day we honor all of the brave men and women who lost their lives in the senseless act of terrorism to our nation on September 11, 2001. We also recognize the human resolve of our country and we salute our military and emergency service providers who gave of themselves on this day, and continue to do so every day.

On behalf of the entire staff in the Adult Education Department, we recognize this day, as well as the many students and staff who currently serve or who have served in both the military and emergency services. Thank you for your contributions to our country and commitment to serve others. Your impact is felt in our great nation and we remember and thank you.

Sincerely,

The Adult Education Team
